Dear Students!

Our University’s E-learning system is accessible from anywhere via the Internet at https://elearning.uni-mate.hu/.

In this document we would like to provide a few basic information to help you navigate in the system.

Content

1. Logging in

The e-learning portal can be accessed by University students by typing their Neptun code and the corresponding password (previously set on the site JoKeR).
1.1 First time users’ login

Prior to anything else, activating your user account is required on the site [joker.uni-mate.hu](http://joker.uni-mate.hu). First, switch the language to English and sign in.
After logging in, you have to change the pre-set password, and by changing it, you’ll activate your account. (Note: If you have previously accessed MATE Wi-Fi, e-learning or webmail, you already activated your account and created a password other than the pre-set one! You don’t need to do it again.)

From then on, the Neptun code and the new password can be used to access university systems including the E-learning system, webmail and Wi-Fi. (The password replacement does not affect the Neptun system.) If you have problems logging in, you should contact the Information Technology Directorate at the address helpdesk@uni-mate.hu!

2. Profile data

After the first login, you can view your own profile by selecting the "Profile" drop-down menu under the user name. Your personal data from the university registration system are automatically uploaded to the E-learning portal. In case you need to change your name, send email to helpdesk@uni-mate.hu.

If you are viewing your Moodle account while away from Campus in a different time-zone than Hungary, it may be useful to view your due dates and events in the time zone in which you are currently located, so that you do not have to make adjustments for time difference each time reading your timeline. Go to profile settings, and select the country then click on “Update profile” Don’t forget to set it back if you return/move to Hungary.
